

CHUBB®

Insurance
Solutions for
the Energy
Industry

Chubb offers a full spectrum of insurance products designed to meet the needs of the energy industry.

Chubb's Energy Industry Practice understands the complex spectrum of risks experienced by today's energy sector. We recognize the unique exposures associated with energy companies, and our global operation in 54 countries and territories positions us to support today's energy industry with best-in-class products, risk management services, and claims handling capabilities.

Our target classes include:

We have consistent appetite across our target classes.

Chubb Global Casualty

The Chubb Global Casualty team offers a wide range of customized primary casualty products and dedicated underwriting teams to meet the needs of companies and organizations operating in the traditional and renewable energy marketplace.

Domestic Exposures

For mid-sized to large companies with U.S. exposures, Chubb Global Casualty offers maximum flexibility in program customization.

- ▶ Workers compensation, general liability, and auto liability
- ▶ \$250,000 minimum retention for workers compensation
- ▶ Large deductibles
- ▶ Bundled and unbundled claims capabilities
- ▶ Multiple-line capabilities
- ▶ Electronic policy delivery and service available through Worldview®

International Exposures

For U.S.-based corporations and multinationals with large or complex energy operations and exposures outside the United States, Chubb Global Casualty's solutions include U.S. Controlled Master Program policies with admitted local policy placement(s), flexible program structures, and tailored risk transfer options.

- ▶ General and auto liability
- ▶ Voluntary compensation, workers compensation, and Defense Base Act
- ▶ Capacity up to \$10 million per occurrence/aggregate
- ▶ Worldwide network of local admitted insurers
- ▶ Captive capabilities
- ▶ Real-time programs delivered via the Chubb Worldview platform

Insurance Solutions for the Energy Industry

Chubb Excess Casualty Energy

Chubb Excess Casualty provides Lead Umbrella and Excess Liability solutions for clients in the Energy and Chemical sectors on both a supported and unsupported basis.

- ▶ U.S. and Canadian domiciled companies that fall into the following segments: chemical manufacturers/distributors, mining, power generation and utilities, oil and gas (upstream, midstream, and downstream companies), and related manufacturing and contracting companies serving these segments
- ▶ Lead umbrella and excess liability products covering general liability, auto liability employer's liability, and other scheduled coverages
- ▶ Maximum available capacity is \$25 million for the United States
- ▶ Attachment requirements vary from segment to segment
- ▶ Occurrence, claims made, and occurrence reported (Bermuda Forms) are utilized

Environmental

Chubb Environmental offers premises and contractors pollution liability and underground storage tank coverage for energy risks.

- ▶ Capacity up to \$25 million per occurrence/aggregate
- ▶ Multi-year policy terms available
- ▶ Global programs available
- ▶ Specialized claims and loss control services
- ▶ Environmental Incident AlertSM (Chubb's logistical environmental response technology)

Commercial Marine

Chubb Commercial Marine offers cargo and cargo legal liability, as well as hull and liability coverages to domestic energy risk clients.

- ▶ Capacity up to \$60 million for cargo and \$10 million for hull
- ▶ Specialized claims and loss control services

Construction

Chubb Construction offers primary and excess casualty for maintenance wrap-ups, multi-year owner-controlled and contractor-controlled insurance programs (OCIPs/CCIPs), annual contractor practice policies, project-specific joint ventures, and public-private partnerships.

- ▶ Workers compensation, including employer's liability up to \$2 million, and FELA, maritime, and USL&H coverage
- ▶ General liability capacity of \$2 million per occurrence, \$4 million general aggregate, and \$4 million products-completed operations aggregate (higher limits can be available in some jurisdictions)
- ▶ Auto liability capacity up to \$2 million occurrence/aggregate
- ▶ Excess liability capacity of up to \$25 million (can vary by state or project)
- ▶ Retentions of \$250,000 or greater on OCIPs/CCIPs (can vary by state or project), captives/rent-a-captives, and fronted deductible program capabilities
- ▶ Specialized and dedicated construction claims, risk engineering, credit management, and account service teams
