

Industry Practices: Coverage & Service Solutions for Large Domestic & Multinational Accounts

CHUBB®

At Chubb, we craft solutions for large domestic and multinational accounts with a dual focus: We look at your risk individually, considering what makes your organization and your exposures unique. We also understand the big picture issues and challenges of your industry... and use this knowledge to tailor insurance for the exposures of your sector via dedicated Industry Practices.

Our Industry Practices put at your service teams with sector-specific expertise and resources to customize insurance and risk management solutions for large domestic and global clients.

The Practices

Our practices focus on the needs of specific industries and niches, including:

Construction

Large contractors or construction project owners can take advantage of both traditional and non-traditional approaches to insurance. Our integrated property, casualty and specialty insurance solutions range from wrap-ups and contractor's practice policies, to builder's risk, surety and professional liability solutions worldwide.

Real Estate & Hospitality (REH)

We offer a complete suite of property and casualty solutions enhanced for REH risks -- from building owners, REITS and commercial property managers, to casinos hotels, and golf courses. Solutions run the gamut from high-limit property coverage (including \$50 million in critical catastrophe capacity), to domestic and foreign casualty, E&O, and Privacy & Network Security insurance.

Healthcare

Chubb has a broad appetite for healthcare organizations, including hospitals and healthcare systems, managed care organizations, long-term care facilities, and outpatient medical providers. Our approach enables clients to address property and casualty, financial and management liabilities in one stop, with the support of reliable and specialized risk management and claims services.

Energy

Our energy practice zeros in on the risks of large companies in the chemical, power and utility, oil and gas, and mining industries. Specially focused teams collaborate with clients to provide best-in-class products in areas spanning from primary and excess casualty, to environmental, marine and construction.

Financial Institutions

Chubb provides highly customizable insurance and services for a wide range of financial institutions, including asset management firms, banks and other lending institutions, and insurance companies. Along with sound coverage, financial institutions can expect innovative, risk-mitigating solutions -- from mock regulatory exams for asset managers, to recommendations to help banks prevent employee fraud.

Transportation

Truckers and transportation fleets benefit from a host of coverages for their particular needs -- from general liability and workers compensation coverage, to marine and occupational accident insurance. Coverage is paired with services that help clients operate safely and get cargo from here to there on time and unscathed.

Coverage that fits
your industry.
*Our craftsmanship is
your competitive edge.*

Mergers & Acquisitions/Private Equity

Chubb offers a broad array of value-added insurance solutions for private equity firms and their portfolio companies. Clients can expect a one-team approach to addressing their spectrum of risks. Transactional risk products are available to facilitate mergers and acquisitions and help parties efficiently allocate the risks of these transactions..

Broad Coverage, Creative Solutions

Our Industry Practices provide our customers with easy, single-stop access to Chubb's full array of products - including property, casualty, environmental, marine, cyber and management liability insurance. Many coverages include innovative enhancements targeted specifically to a particular industry. All programs are carefully structured to fit client's needs locally and globally.

Meaningfully Tailored Services

Our industry-focused risk and engineering services fortify our coverages, so clients know they are not only well insured, they are well prepared to minimize the likelihood of losses. From fleet safety services for truckers, to ESIS' Health, Safety & Environmental (HSE) Services for oil rigs, to consulting to mitigate the risks of a fast-moving merger... our services are thoughtfully deployed to keep our client's performing at their best.

Claims

Our Industry Practices combine Chubb's commitment to unparalleled customer service with insights from industry specialists who help clients achieve the best possible outcomes when they face a claim. Specialized teams are ready to respond to everything from a contractor's environmental hazard, to water damage in a multi-family commercial real estate property.

Chubb Strength Behind Your Industry

Chubb's financial stability is rated AA by Standard & Poor's and A++ by A.M. Best. Chubb is the world's largest publicly traded Property & Casualty company. Our customers can be confident that they're insured by a financially stellar company.
