ForeFront Portfolio™
Kidnap/Ransom and Extortion Insurance
Business kidnapping and extortion risks are not limited to just global companies.

Any company of any size can be a target for kidnappers or extortionists, whether domestically or abroad. Managing the costs associated with such risks can push a small to midsize company to its financial limits.

More companies are realizing the importance of managing these risks through ForeFront Portfolio SM Kidnap/Ransom and Extortion Insurance from Chubb. Our total package includes insurance, risk management information, and immediate access to security consultants. This unique product can assist privately owned companies in successfully managing their kidnapping and extortion exposures.
