

CHUBB®

Little Black Book
South Australia

Expert insurers of your valued possessions

As our lives grow, we acquire possessions that have a value to us beyond money. Be it an art collection studiously curated over a decade, a much loved watch handed down from a grandfather or a wardrobe bursting with shoes and handbags.

At Chubb we understand this, and working with specialist brokers we help insure the lifestyles of successful individuals and their families.

Our Little Black Book of contacts are the names and numbers of a select group of companies that can help safeguard the possessions and homes of our clients.

Relationships will be directly with these companies, although upon request Chubb can facilitate an introduction for you. We do hope you find these contacts of use.

Chubb Insurance Australia Limited (Chubb) does not endorse, recommend or otherwise imply that the included companies are members of a currently stated industry association or licensed under any applicable laws. Chubb recommends that you evaluate each of the Service Providers listed within for their products and services to ensure that all individual needs and requirements can be met. Please ensure evaluation of the Service Provider takes place before deciding to utilise any of these services. Chubb is not responsible for decisions made in acquiring services from the list within.
