Why EPL Coverage?

The financial consequences of employee claims for harassment, discrimination, wrongful termination, retaliation, and other workplace torts can have a devastating impact on even the largest corporations. Chubb Bermuda's Employment Practices Liability (EPL) policy can help mitigate losses from past, present, and prospective employees alleging wrongful employment practices.

Why W&H Coverage?

Wage and hour claims have become more prominent in recent years. Employers continue to face increased litigation regarding misclassification of employees and independent contractors as well as pay practices. These often result in large amounts of financial loss, which are usually excluded from the EPL policy. Chubb Bermuda's Wage and Hour (W&H) policy can help mitigate losses from employees and independent contractors alleging misclassification and improper pay practices.

The Solution

For buyers of large EPL and W&H insurance programs, Chubb Bermuda now offers companion primary Employment Practices Liability and primary Wage and Hour coverage, in addition to our longstanding excess coverage offering.

These new primary coverage offerings are claims reported, a differentiating feature for Chubb Bermuda, and can be issued as either a standalone or blended policy for the complete-solution insurance protection large employers want when building an EPL and W&H tower.

A Tower Built By You & For You

We offer tailored solutions specific to client needs. When you engage with our underwriters, you get tailored coverage that fits your particular risk profile.

We practice the art of insurance craftsmanship allowing us to construct your primary and excess EPL and W&H tower in a variety of ways, providing you with individualized – and far more effective – protection.

It could be that your ideal tower combines, for instance, standalone primary and excess EPL coverage or blended primary EPL/W&H coverage with standalone excess EPL coverage. Chubb Bermuda will partner with you to design a program you need, giving you the protection that you can trust.
