

Mortgage Protection Insurance

Is your financial institution exposed?

CHUBB®

What is Mortgage Protection Insurance?

A lender's financial interest in loans secured by real property can be protected by an insurance product called 'Mortgage Protection' in the event that the property is uninsured and sustains physical loss or damage.

Why buy Mortgage Protection Insurance?

- Without your knowledge your financial interest in a mortgaged property may no longer be protected by insurance and a significant uninsured loss may result should the borrower default on their mortgage payments. Chubb's Mortgage Protection Insurance provides contingent coverage for the portfolio on a blanket basis.
- Once you are aware that insurance no longer exists and the property is not protected, it can be costly and time consuming for the lender to

individually place primary insurance on multiple properties for an indeterminable period of time. Flexible options through Chubb's Mortgage Protection Insurance include the ability to secure blanket primary coverage protecting your financial interest.

- You may be sued by a third party due to bodily injury or property damage originating from a property you've secured after the mortgagor defaulted on their mortgage payments. Chubb can endorse liability coverage for potential risks stemming from vacant and exposed properties.
- Investors may sue you due to deterioration in income or investment returns within a portfolio or fund in the event that the principal balance of a mortgage loan has not been protected by the mortgagee or fund manager. Chubb's Mortgage Protection Insurance also provides a tailored approach to protecting the assets of Mortgage Investment Corporations (MICs).
