

Help Protect your home from the #1 cause of loss

Install a flow-based water leak detection device

At Chubb, we look for ways to do more for our clients. That includes helping you protect your home and valuables and prevent issues from happening in the first place. That's why we're recommending that you install a flow-based water leak detection device, to help keep potential water leaks from damaging your home or possessions.

How does a water shut-off device work?

Installed by a plumber directly onto your water line, a flow-based water leak detection device monitors the flow of water throughout your home. If an unusual activity or flow of water is detected – potentially caused by a leak somewhere in your plumbing or pipes – the device will alert you first and then shut off your water supply to help minimize damage.

We've done the legwork for you.

To make it easier for you, we've researched and vetted the following preferred vendors. Each of them can provide a water shut off device to protect your home from water leaks – at a discount, offered by the vendor to Chubb homeowners' clients. You can purchase a device using one of the links below. If you're not sure which one is best for you, contact a Chubb Risk Consultant water specialist by emailing chubbriskeconsulting@chubb.com.

Before making a selection regarding an automatic water shut off device, consider your plumbing system and the various mechanical devices and appliances running on this system. Carefully review these devices and appliances with your licensed plumber or installation professional before installation of your automatic water shut off device. Please consider the potential downstream impacts of shutting off the water to these plumbing system devices and appliances, especially when the water is shut off for extended periods of time. Devices and products described herein are provided by third party vendors not affiliated with Chubb. Chubb assumes no liability or responsibility for products and/or services provided by such vendors. The offer described herein is not an indication that insurance coverage is available under any Chubb policy for any particular incident.

Chubb is the marketing name used to refer to subsidiaries of Chubb Limited providing insurance and related services. For a list of these subsidiaries, please visit our website at www.chubb.com. In Canada, Chubb operates through Chubb Insurance Company of Canada and Chubb Life Insurance Company of Canada. All products may not be available in all Canadian jurisdictions. This communication contains product summaries only. Coverage is subject to the language of the policies as actually issued. Risks subject to full underwriting review and acceptance; premiums may vary. Reasons listed for why an insured chose Chubb based on perceptions of Chubb employees from communications with producers. Chubb is the world's largest publicly traded property and casualty insurance group. With operations in 54 countries, Chubb provides commercial and personal property and casualty insurance, personal accident and supplemental health insurance, reinsurance and life insurance to a diverse group of clients. Chubb Limited, the parent company of Chubb, is listed on the New York Stock Exchange (NYSE: CB) and is a component of the S&P 500 index. (Ed. 03/2021)
