It's a convenient, affordable way to get professional medical advice and care for a wide variety of common medical conditions.</p>
Supplemental medical	<p>Chubb offers three different types of supplemental medical insurance, all underwritten by Chubb. These plans provide cash payments in the event of a significant unexpected medical expense. You pay the full cost of coverage through after-tax payroll deductions.</p> <p>These plans are designed to supplement your medical plan. Consider the coverage offered by each to determine which one(s) best fit your needs.</p> <ul style="list-style-type: none"> • Accident insurance — Provides cash benefits in case of accidental injury. Use the money to help pay for uncovered medical expenses, such as your deductible or coinsurance, or for ongoing living expenses, such as your mortgage or rent. • Critical illness insurance — Provides a lump-sum benefit to help protect you against the financial impact of certain illnesses, including heart attack and cancer. Use the money to help cover your out-of-pocket expenses for your treatment and your everyday living expenses. • Hospital indemnity insurance — Provides a benefit as a lump sum or on a schedule to help offset the expenses and bills associated with a covered sickness or accident, including hospital stays. This plan pays benefits in addition to any other insurance.

Health Savings Account (HSA)	<p>Employees who enroll in a high deductible health plan (the \$1,850 or \$2,850 Deductible Plans and \$1,800 or \$2,800 Deductible Plans for Kaiser only) may enroll in the HSA — a tax-free savings account you can use to pay for your health expenses now and in the future.</p> <p>You contribute to your HSA with before-tax payroll deductions, then spend the money tax-free on your eligible medical, dental, and vision expenses. Chubb contributes to the HSAs of all employees enrolled in the \$1,850 Deductible Plan (\$1,800 for Kaiser Plan). The amount of the company contribution depends on the level of coverage you elect: \$500 for employee-only coverage; or \$1,000 for employee plus spouse/partner, employee plus child(ren), or full family coverage.</p> <p>HSA contributions are funded quarterly at the beginning of the next quarter following your enrollment. You can spend your HSA money as you go or use it to stockpile tax-free savings that you can use to pay for your health expenses anytime, even in retirement. In addition, you can invest your HSA funds for tax-free earning potential once your account has reached a minimum of \$1,000.</p>
Flexible Spending Accounts (FSAs)	<p>Chubb offers three types of FSAs to help you save money on your health and dependent care expenses:</p> <ul style="list-style-type: none"> • Health Care FSA: Available to employees who are not enrolled in the HSA and used for eligible medical, dental, and vision expenses • Limited Purpose FSA: Available to employees who are enrolled in the HSA and used for eligible dental and vision expenses only until you meet an IRS annual deductible for high deductible health plans — after that, eligible medical expenses are also allowed • Dependent Care FSA: Available to all employees and used for eligible dependent care expenses <p>The money you contribute to these accounts comes from your paycheck before it is taxed, and you withdraw it tax-free when you pay for eligible expenses. You will receive a debit card to pay for eligible expenses or can submit a claim to reimburse yourself.</p> <p>Unlike the HSA, the FSAs have a “use it or lose it” rule. With the Health Care FSA and Limited Purpose FSA, up to \$570 of unused money may be carried over to the next year; amounts above \$570 will be forfeited. With the Dependent Care FSA, there is no carryover feature, so any money remaining in your account at year-end will be forfeited.</p>

Vision	<p>The EyeMed vision plan helps cover your eligible vision care expenses such as eye exams, glasses, and contact lenses. The plan offers coverage for both in-network and out-of-network services, but you will pay less when you stay in the EyeMed network.</p>

Savings and investment plans

Chubb US Retirement Savings Plan

Chubb is committed to supporting the financial well-being of our employees — today and tomorrow. The Chubb US 401(k) Plan (the “401(k) Plan”) is administered by Fidelity. It gives you a convenient, tax- advantaged way to save and invest for your retirement, along with company contributions that can help grow your savings faster.

Key features

The 401(k) Plan is designed to provide employees with significant savings to be used for retirement.

- If you do not take any action within 35 days of your date of hire, you will be auto-enrolled at a 6% before-tax contribution of your eligible pay and set to a Target Date Fund investment option. Please note, you can change your plan contribution rate at any time.
- You can receive employer contributions (a **basic contribution** as well as **matching contributions**) equal to 9% of your eligible compensation each year to be earmarked for retirement.
- You are fully vested in employer contributions after completion of two years of service.
- Under certain conditions, you can borrow against your vested account balance. In addition, if you incur a hardship as defined by the IRS, you may withdraw a portion of your retirement savings.
- There are various investment options for you to choose from. Each of these investment options falls into one of three categories: stocks, bonds, or money market/stable value funds. You can make changes to your investment options on a daily basis.

Contributions from you and Chubb

Together, you and Chubb both save for your retirement.

- **Company basic contribution:** Chubb makes a basic contribution each January in an amount equal to 6% of your eligible earnings for the prior year. Even if you don’t contribute to the plan, this is an automatic company contribution and you decide how the money is invested. Company contributions to this plan will be made once a year in the first quarter following the plan year and only to those employees who were employed on December 31 of the previous year.
- **Your contributions:** You may contribute up to 50% of your eligible earnings to the 401(k) Plan (10% if you are highly compensated officer participating in the Chubb US Supplemental Employee Retirement Plan); however, all employees can contribute up the **IRS maximum of \$20,500 for the 2022 plan year.**

	<ul style="list-style-type: none"> • Matching contributions: Chubb will match 50% of your contributions to the 401(k) Plan, up to the first 6% contributed. Company contributions to this plan will be made once a year in the first quarter following the plan year and only to those employees who were employed on December 31 of the previous year. <p>Roth 401(k) option</p> <p>Chubb allows employees to contribute Roth after-tax contributions under the 401(k) Plan. This allows participants to contribute after-tax dollars, whereas contributions under a 401(k) account are usually on a before-tax basis. Roth contributions are made through your paycheck, and any investment earnings from Roth contributions are tax-free when distributed from the plan at retirement (assuming participants meet Roth participation requirements).</p>
Chubb US Supplemental Employee Retirement Plan	<p>The Chubb US Supplemental Employee Retirement Savings Plan (SERP) is designed to increase the savings potential of eligible highly compensated officers.</p> <p>Since the 401(k) Plan is deemed a tax-qualified plan, current tax law limits the amount an employee and Chubb can contribute.
