

Environmental Risk Premises Pollution Liability

Our Premises pollution liability policy is designed to offer a broad range of flexible, affordable protection for both first and third party environmental risks.

CHUBB®

What we offer

Cover is offered on either an annual or multi-year basis. We combine our wealth of expertise in the environmental risk field with our capabilities in insurance to provide seamless cover for our insured's entire business operations. This helps to avoid gaps in cover and allows peace of mind that environmental risks are adequately catered for.

Key cover available

- Remediation costs imposed by regulators -includes clean-up of:
 - the insured's own property
 - other land, water, and biodiversity
- Third-party legal liability
- Scheduled covered locations - allowing the insured to select the sites it wants to insure
- Bodily injury
- Cover for sudden & accidental and gradual pollution
- Property damage, including loss of use and diminishment in value
- Nuisance trespass & obstruction
- Liability arising under the EU
- Environmental Liability Directive and any associated member state law
- Covers all environmental damage, not just resulting from pollution
- Losses arising from transportation of products or waste by or on behalf of the insured

- First-party business interruption
- Loss mitigation costs - emergency expenses incurred in responding to an incident
- Costs and expenses included for all claims within the policy limits
- Multinational policy form available, providing coverage on a worldwide basis with local policies where required
