

CHUBB®

Chubb's Ignite platform

Chubb's new Ignite platform has been designed specifically for brokers to quote and bind business insurance online. By combining intuitive design with a customer centric experience, brokers can arrange their client's business insurance in a matter of minutes before issuing documentation on the spot.

Key features and benefits

Arrange cover quickly and easily

- A simple question set means you can quote and bind in minutes
- Electronic policy documents and debit notes can be issued immediately
- You can arrange cover anytime online 24/7

Support when you need it

- Dedicated support team to help with policy and technical referrals
- Suite of tailored marketing and point of sale materials available on the platform
- A range of online fact sheets and guides providing risk advice for clients

Simple, cohesive client management

- Simple search function to find existing clients and add new ones
- View all client details, quotes and policies in one place and manage changes online
- Edit policy dates, limits, commission rates and contact details without the need to contact an underwriter
- Important tasks, such as retrieving a quote, managed in just a few clicks from the homepage
- Renewals managed online with helpful alerts to notify on upcoming activity

More opportunities to grow your business

- Enhanced cross-selling opportunities with multiple products available
- Client data saved across the platform so no need to rekey information when arranging additional policies

Regular product and platform updates

- A strong pipeline of new products and enhancements
- Regular communication on platform updates and new product development
