Market Commentary

Globally, investor concerns due to rising COVID-19 cases, especially in Europe and the United States (US), began to subside, triggered by positive news about the COVID-19 vaccine and Biden's victory in the US election. This news also made the stock market bounce back. Markets were expecting more stimulus plans from President-elect Biden so emerging markets were expected to get benefit from administration due to capital flows from the US to emerging markets. Asian market performance has varied, however overall performance was positive driven by Biden's victory and positive news regarding the COVID-19 vaccine from Pfizer, Moderna and Astra Zeneca reported promising trial results. Several countries in Europe, such as Germany, France and Britain, are still implementing lockdowns due to the increase in COVID-19 cases. Rupiah closed up 3.5% on month to IDR 14,120 / USD.
