

Chubb Recall Questionnaire (Automotive)

The questionnaire seen in Appendix A has been designed to extrapolate the minimum information requires to allow Chubb underwriters and risk control to make an informed decision on the quality of the risk.

It attempts to focus on the core elements of any organization which we would require depends on the scope of activities undertaken by the insured. These are:

1. Design
2. Manufacturing
3. Supply / Distribution

The questionnaire is split to reflect these activities.

The insured/ broker should only answer the section applicable to them.

Appendix A – Recall Questionnaire

Section 1 – About you

Company Name

HQ Address

Locations

Website

Business Description

Section 2 - Products

1. Please identify the top five products by turnover

Item				
Ref	Product Description	Annual Turnover	Years in production/sold	
1				
2				
3				
4				
5				

2. For each of the items stated above, please identify:

- ✓ the intended function of the product
- ✓ the consequence of inefficacy , i.e. severity ratings of Design/-Integration FMEA
- ✓ whether there are any agreed or acceptable failure rates

This failure rate may be explicitly stated (i.e. through contract or adherence to standard) or implied through historical experience.

Item Ref	Intended Function	Consequence of Failure	Failure Rate and source of data
1			
2			
3			
4			
5			

3. For each of the items stated above please provide details of typical batch sizes and a description of any traceability in place (e.g. serialization etc.)

Item Ref	Annual Output	Typical Batch size	Traceable Y/N	Method of traceability (eg batch code, shift/day/week/month/year, serial number, data matrix, bar code, etc)
1				
2				
3				
4				
5				

Section 3 – Recall History and Controls

4. In the past ten years, has your product or any product supplied by you been recalled either by yourself or by a third party? ☐ Yes ☐ No
