4. When the above premium discount is credited, the total annualized premium payable for the eligible life insurance product(s) policy must be not less than the required amount as shown in the above table and the eligible life insurance product(s) policy must remain in force. The total annualised premium refers to the annualised premium payable for the policy year under the basic plan and the additional premium (if any) due to underwriting payable for the basic plan and rider(s) (if any) of the eligible life insurance product(s), and calculated based on the current amount of premium payable when the premium discount is credited.
