

# Digital business accelerated Risk and product worksheet

Chubb's research with Accenture is a great starting point when it comes to understanding the opportunities and risks of accelerated digital business.

But there's no point knowing the risks without having access to comprehensive coverage that protects against them.

This worksheet outlines all of the risks, and the relevant Chubb solutions, in one place.

Digital business operations can involve a wide variety of risks. To illustrate how certain types of insurance coverage may apply to certain types of risks, please review the worksheet below. Coverage for any particular loss depends on the facts involved and is subject to the language of the policies as actually issued, but this can be a useful tool for discussion between insurance agents and their clients to evaluate risks and potential risk solutions.
