CHUBB®

Technology Companies

Who we insure

Available as a package, on a mono-line or an excess basis.

Unified Communication Equipment Manufacturing

- Computer and peripheral equipment manufacturers
- Communications equipment manufacturers
- Electronic components and accessories manufacturers
- Integrated circuit manufacturers
- Network/hardware manufacturers
- Smart technology accessories manufacturers
- Communications gateways
- IP telephony Breach

Information Communication Technology Services

- Data processors and integrators
- Data storage and retrieval services
- Computer consultants and
- Systems analysts
- Computer facilities managers
- Computer maintenance and repair
- Value added resellers (VARs)
- Hardware and software defence
- Contractors
- Outsourcers
- Other computer-related services

Software Development

- Pre-packaged software
- Operating systems
- Networking software
- Databases
- Application software and tools
- Computer programming
- COTS shrink-wrapped software
- Medical packages
- Security packages

Internet and Unified Communication Services

- Internet service providers
- Application service providers
- Web hosting and ancillary services
- Wireless communications and messaging services
- Infrastructure development projects
- Media providers
- Informatics engineering

Health Informatics Technology

- Clinical Informatics
    - Medical records
    - Software systems
    - Image informatics
- Tele-Health
- Hospital /Clinic/Pharmacy/GP/Administration Systems & Software
    - Billing
    - Patient appointments
    - Patient management
- Medical research informatics
- Bio-medical informatics

Government Contractors

- Software developer
    - CAD/CAM
    - Financial systems
    - Database management
- Communication equipment manufacturers
- Data processing
- Computer maintenance
- Network service providers
- Data storage systems service
- Data centre operations
- Converged communications services

Emerging Technologies

- Cloud
- Big Data
- Internet of Things
- Predictive modelling
- Diagnostic equipment
- Real Time equipment and software testing analytics
- Process control/control system integration

Defence Technologists

- Defence technology contractors
- Communication product manufacturer
- Communication services developer
- Satellite communication specialists
- Testing Agents
- Unmanned Aerial Systems Software
- Unmanned ground vehicles

Advanced Manufacturing

- Advanced robotics
- High precision technologies
- Computer maintenance
- Management Integration and Intelligence (MII) systems
- Manufacturing Operations Management (MOM) systems
- Sustainability technologies
- Automation processes
- 3D Printing processes

Clean Technology

- Analytical & monitoring solutions
- Asset efficiency management equipment
- Efficient lighting design and manufacturing
- eg solar street lights
- Smart building systems
- Smart grid technologies including software monitor dashboards and hosting
- Smart meter technology
