Chubb Climate+ Renewables

Guide for brokers

CHUBB

Climate⁺

Climate progress needs protecting

With Climate+, we are drawing on Chubb's extensive technical capabilities in underwriting and risk engineering to enable climate change progress around the world, at an industry level and in local communities.

Our newest product under the global business unit is Climate+ Renewables, which supports the growth of alternative and renewable energy projects in the UK.

Climate+ Renewables is a multiline package for small to medium renewables projects, and can cover both construction and operational phases.

Read on to find out more about the product and contact points to help secure cover for your clients.

Renewables: The market

In the UK, a record amount of energy was generated from renewable sources in 2022 with 41% of all energy coming from wind, solar, biomass, and hydro. More investment is needed as the UK seeks to become a renewable energy powerhouse. As the UK market grows, clients need a specifically designed insurance programme that keeps pace as their project launches and develops.

£885bn Projected global renewable energy market by 2023 £100bn Government expectations of private investment in UK green tech by 2030

41% Of UK energy generated from renewable sources in 2022 5x growth In UK solar capacity expected by 2035

£885bn - Renewable Energy Global Market Size 2022-2023, www.statista.com £100bn / 5x growth - 'Powering Up Britain' report, HM Government March 2023 41% - UK Energy Trends Oct-December 2022, Dept for Energy Security & Net Zero

Coverage & appetite

Climate+ Renewables is designed specifically for the following renewable energy projects:

- Photovoltaic (PV) solar
- Onshore wind
- Located in the UK
- Contract value / sum insured up to £50m

Our approach to coverage and appetite delivers continuity of cover across the construction and operational phases of a renewable energy project. For clients, this means tailored, seamless protection with guaranteed future premium costings. The policy is separated into sections:

Construction:

Operational:

- Erection all Risks (mandatory)
- Delay in Start-Up
- Terrorism
- Marine Cargo
- Marine Delay in Start-Up
- Public and Products Liability
- Environmental Protection

- Material Damage (mandatory)
- Business Interruption
- Terrorism
- Public and Product Liability
- Employers Liability
- Environmental Protection

Most coverages are optional, and limits should be discussed with <u>Chubb underwriters</u>.

Service excellence that delivers

As a Chubb Industry Practice product, Climate+ Renewables is powered by a service-led model that provides real, tangible benefits to clients operating in a highly specialised sector.

We're specialists in risk

We bring a wealth of experience together, because the biggest challenges need to be met by broad and deep expertise.

Proactive risk prevention

Our risk engineering capabilities can be deployed for larger, complex risks to help identify and mitigate risks before they impact your clients' projects. **Coverage that enables growth** At the heart of our proposition is tailored coverage designed to grow with your clients' needs and ambitions. All backed by specialist underwriting experts.

First-class claims management Expert claims handlers in place to support clients through each stage of the claim. We're quick to respond and act decisively.
