

# Construction Safety Consulting

CHUBB®

A strong safety culture is key to preventing construction accidents, reducing injuries and promoting a safe jobsite. A commitment to safety should be an essential component of every construction project, from planning through punch-list.

## **CGRA's Approach**

---

The Chubb Global Risk Advisors<sup>SM</sup> construction safety and health consultants provide a “hands-on” approach to handling construction and construction related loss control activities.

Chubb Global Risk Advisors partners with clients by becoming an asset to their management team. Our objective is to understand each client's operations and goals to develop solutions for their unique situations and the ever-changing construction environments to help eliminate accidents, reduce downtime and enhance your safety culture.

Our team consists of highly credentialed members with extensive experience in construction. Each member is trained in the safety and insurance environments, and are focused on all levels of risk that have an effect on your bottom line.

## **Comprehensive Service Offering**

---

*Chubb Global Risk Advisors' construction safety services include:*

**Chubb Global Risk Advisors**

## High Standards Drive High-Quality Programs

---

Chubb Global Risk Advisors' best practices philosophy helps drive consistent, high-quality services. As part of these best practices, Chubb advises that clients:

- Clearly communicate safety responsibilities from project executive to supervisory staff to the field
- Clearly outline safety responsibilities for contractors and subcontractors in their contract documents
- Provide training for project superintendents/forepersons and include safety as part of their performance review
- Provide effective and documented employee orientation
- Conduct pre-construction/pre-planning meetings for trades/tasks considered high exposure
- Proactively complete a job hazard analysis and develop safety procedures
- Provide training and re-training
- Perform regular safety audits and track actions to completion
- Maintain a "zero-tolerance" philosophy for unsafe practices
- Recognize and reward positive safety behaviors

## A Partner to Drive Improved Results and Growth

---

As our risk control consultants work with your organization, our consultative approach and commitment to excellent customer service help your members see risk control and risk engineering services as a benefit to them individually, and as members of the program itself.

We would love to discuss how Chubb Global Risk Advisors can help your program sustain long-term profitable growth.
