

# Chubb Primary Construction North America Major Accounts

CHUBB®

As the construction industry evolves, new exposures, risks and challenges continue to emerge. Whether it's technological innovation, an aging skilled-labor pool, regulatory changes or the influx of new project delivery methods - The Chubb Construction team has specialized resources and capabilities to help navigate these trends and provide long-term risk management stability.

As a consistent and committed partner of the construction industry, Chubb Construction offers customers with a broad suite of insurance solutions and services supported through flexible underwriting and risk engineering expertise as well as a dedicated construction claims staff.
