01

Wealth Accumulation to meet your financial needs

- **Chubb MyLegacy III helps you build wealth through 3 sources of growth**
 - (i) **Guaranteed Cash Value** may increase as the Policy ages, to assure your savings can grow steadily even though there is market fluctuation.
 - (ii) **Reversionary Bonus and Terminal Bonus** are 2 types of non-guaranteed bonuses offered by Chubb MyLegacy III which is a participating savings insurance plan, enable you to share the Company's divisible surplus earnings.

Reversionary Bonus will be declared annually starting from the 3rd Policy Anniversary, provided that all Premiums due have been paid in full and the Policy remains in force. Reversionary Bonus is determined by the Company, has a notional value and is subject to change from time to time. Once credited to the Policy, the notional value of the Reversionary Bonus is guaranteed and forms a permanent addition to your Policy. This notional value forms part of the Death Benefit calculation. The Reversionary Bonus also carries a non-guaranteed cash value, and becomes payable in the event of Standby Regular Withdrawal Instruction being carried out, Cash Withdrawal, surrender (including partial surrender) or maturity of the Policy. Please note this cash value may not be equal to the notional value of the Reversionary Bonus.

Terminal Bonus is determined by the Company from time to time. The Policy will be eligible to share the Company's divisible surplus earnings in the form of Terminal Bonus annually after the Policy has been in force for certain years, provided that all Premiums due have been paid in full. Terminal Bonus carries a notional value and cash value, the former counting as part of the Death Benefit calculation. The cash value of the Terminal Bonus becomes payable in the event of Standby Regular Withdrawal Instruction being carried out, Cash Withdrawal, surrender (including partial surrender) or maturity of the Policy. Both the notional value and cash value of Terminal Bonus are not guaranteed and are determined by us when they become payable. Please note this cash value may not be equal to the notional value of the Terminal Bonus. Neither notional value nor cash value of the Terminal Bonus is guaranteed until payment. It should also be noted the Terminal Bonus may rise or fall. It does not accumulate within the Policy, nor forms a permanent addition to the Policy.

- **Cash Withdrawal secures non-guaranteed bonuses**

Chubb MyLegacy III provides the flexibility to meet you and your family's changing financial needs by offering an option to make Cash Withdrawal if there is a cash value of accumulated Reversionary Bonus in the Policy. The Withdrawal Amount will be paid out from the cash value of accumulated Reversionary Bonus and the cash value of its corresponding Terminal Bonus (if any).

Alternatively, you can also choose to keep the Withdrawal Amount in the Policy on or after the 10th Policy Anniversary. The amount will be accumulated with interest at a rate determined by us from time to time. The aggregated Withdrawal Amount accumulated under your Policy together with non-guaranteed interests (if any) shall form the Accumulated Withdrawal Amount.

Steady income streams for your retirement

To secure streams of steady income, you can exercise the annuity option up to 2 times: once upon Cash Withdrawal (fully cash out option) or partial surrender, and once upon the surrender of the whole Policy. Change of Insured is still available after you exercise the annuity option through Cash Withdrawal or partial surrender.

You may elect one of the below annuity options or any other annuity option offered by the Company at the time of annuitization:

- **Fixed Income Annuity**

A fixed monthly annuity income, determined by the Company at our sole discretion, will be paid to the Annuitant until the Annuitant reaches the Age of 120, or passes away, whichever event occurs first.

- **Fixed Income Annuity with 20-Year Annuity Income Payment Guarantee Period**

A fixed monthly annuity income, determined by the Company at our sole discretion, will be paid to the Annuitant for a period of not less than 20 years from the time we approve your request for annuitization ("Guarantee Period").

If the Annuitant survives the Guarantee Period, we will pay the fixed monthly annuity income to the Annuitant until the Annuitant reaches the Age of 120, or passes away, whichever event occurs first.

If the Annuitant passes away during the Guarantee Period, the fixed monthly annuity income will be paid to the Annuitant when he/she is alive; and upon the death of the Annuitant, the fixed monthly annuity income will be paid to the designated beneficiary until the end of the Guarantee Period.

This option becomes available to you starting from the 1st Policy Anniversary, subject to specified conditions. The Maturity Date will be adjusted to the Policy Anniversary on which the Age of the New Insured is 120, while all Policy values remain the same.

- **Converting Partial Surrender Value to a Split Policy for unlimited times**

There may be a couple of loved ones to whom you want to pass on your accumulated wealth. Starting from the specific Policy Anniversary, Chubb MyLegacy III allows you to convert Partial Surrender Value of the Policy to a Split Policy and name a person as the insured of the Split Policy (the "Split Policy Insured").

The policy date and policy year of the Split Policy are the same as those of the original Policy. The maturity date of the Split Policy will be the Policy Anniversary on which the Age of the Split Policy Insured is 120.

04

Helps you get through the unexpected

- **Successor Owner can manage the policy when the unexpected happens**

You can name a person as the Successor Owner. If the Owner passes away or is diagnosed with Alzheimer's Disease, Coma, Loss of Independent Existence or Parkinson's Disease, the Successor Owner will become the new Owner of the policy.

05

Life Insurance Proceeds Settlement Option helps you plan your legacy

Chubb MyLegacy III enables you to enjoy peace of mind because it covers the life of the Insured up to Age 120. If the Insured passes away, the Death Benefit payable will be the higher of:

- The guaranteed cash value of the Basic Plan, plus the notional value of accumulated Reversionary Bonus (if any), plus the notional value of Terminal Bonus (if any); or
- 101% of the Total Basic Premiums Paid, less any Withdrawal Amount(s) paid under the Policy.

If the beneficiary is a Charity, we will pay the Life Insurance Proceeds to the designated Charity(ies) based on the specified proportion provided by you and we will make a donation to the designated Charity(ies) in a total amount which is equivalent to the Life Insurance Proceeds payable which will be capped at US\$10,000, if the aggregate amount of Life Insurance Proceeds payable exceeds US\$10,000.

What's more, Chubb MyLegacy III offers the alternative payout and/or legacy planning options for Life Insurance Proceeds in addition to a traditional lump-sum payment. This allows you to choose a payout and/or legacy planning arrangement for each Beneficiary that best suits your preferences in respect of Life Insurance Proceeds. The payout / legacy planning can be structured as annual or monthly payments over a period of 10, 20 or 30 years, and the choice to designate a specific date for the payout arrangement is available. You can also opt for a combination of both lump sum and instalment payments or consider the Policy Continuation Option. With the Policy Continuation Option, you can name a person as the New Policy Insured and New Policy Owner, which means this person will become the insured and the policy owner of a new Chubb MyLegacy III policy when the Insured passes away.

06

Application is easy – no medical examination required

No medical examination is required in general, provided that the total Notional Amount does not exceed the aggregate limit set for each Insured as determined by the Company from time to time.

Bonus Philosophy and Investment Philosophy, Policy and Strategy

Bonus Philosophy

Participating insurance plans are designed to be held long term. Through the policy bonuses declaration, the policyowners can share the divisible surplus (if any) of the participating insurance plans. We aim to ensure a fair sharing of profits between policyowners and shareholders, and among different groups of policyowners.

We will review and determine the amounts of bonuses at least once per year, and a smoothing process is applied when the actual bonuses are determined. The bonuses declared may be higher or lower than those illustrated in any product information provided. The bonus review would be approved by the Chairman of the Board, one Independent Non-Executive Director and the Appointed Actuary of the Company. In case of any change in the actual bonuses against the illustration or should there be a change in the projected future bonuses, such change will be reflected in the policy annual statement and benefit illustration.

To determine the policy bonuses, we may consider the past experience and future outlook of various factors such as:

- **Investment returns:** include both interest income and change in market value of the asset supporting the policies. The investment returns could also be subject to market risks such as change in interest rate, credit quality and default, equity price movement, as well as currency price of the backing assets against your policy currency etc.

- **Claims:** include the cost of providing death benefit and other insured benefits under the policies.
- **Surrenders:** include policy surrenders and withdrawals; and the corresponding impact on investment.
- **Expenses:** include both direct expenses which are directly related to the policies, such as commission, underwriting, issuance and premium collection expense etc., as well as indirect expenses such as general overhead costs allocated to the policies.

Investment Philosophy, Policy and Strategy

The investment policy of the Company is formulated with the objective to achieve targeted long-term investment results, taking into account risk control and diversification, liquidity and relationship between assets/liabilities.

Our current long-term target asset mix attributed to Chubb MyLegacy III is as follows:

Asset Class	Target Asset Mix (%)
Bonds and other fixed income instruments	30% - 50%
Equity-like assets	50% - 70%

The bonds and other fixed income instruments predominantly include government and corporate bonds (both investment grade and non-investment grade). Equity-like assets may include both listed equity, mutual fund and private equity. Investment assets are predominantly denominated in U.S. dollars and Hong Kong dollars, and are mainly invested in the United States and Asia. Derivatives may be used to manage our investment risk exposures.

We will pool the investment from other products together for actual investment and the returns will be allocated with reference to the target asset mix. Actual investments would depend on market opportunities at the time of purchase. Therefore, the actual asset mix may differ from the target.

The investment strategy may be subject to change depending on a number of factors, including but not limited to the market conditions and economic outlook.

For products that offer annuity option, the investment strategy supporting the annuity payment may not be the same as that of the basic plan.

If there are any material changes in the investment strategy, we will inform our policyowners for the changes, reasons for the changes and the impact to the policyowners.

Key Product Risks

The following information helps you better understand the key product risks associated with this product that you may need to pay attention before application.

- **Risk of Non-payment of Premium**
You should only apply for this product if you intend to pay the premium for the whole of the premium payment term. Should you cease paying premiums early, your policy may be terminated. You will lose your insurance coverage and even the premiums paid as a result.

Non-payment options available under your policy are intended to keep your policy in force for as long as possible during non-payment of premium. However, you should be aware that when non-payment option is in effect, your entitlement to the benefits provided under the policy may be affected. Please refer to the policy provisions for the exact terms and conditions.
- **Risk of Taking Premium Holiday**
During the Premium Holiday, the guaranteed Cash Value of the Basic Plan will remain unchanged and will be recorded in an endorsement. Please note that Reversionary Bonus and Terminal Bonus are not guaranteed and shall be determined by the Company at our sole discretion from time to time. Any rider(s) attached to the Basic Plan will be terminated once the Premium Holiday commences.
- **Risk from exercising the annuity option**
If you exercise the annuity option for your Partial Surrender Value, Surrender Value or Withdrawal Amount, upon the choice of fixed income annuity option, the annuity income may vary depending on the age of the annuitant, and the amount received can be higher or lower than the Partial Surrender Value, Surrender Value or Withdrawal Amount.
- **Liquidity Risk/Early Surrender**
If you have any unexpected liquidity needs, you may apply for cash withdrawal (if applicable), partially surrender (if applicable) the policy for its partial surrender value (if any) or surrender the whole policy for its surrender value (if any). Please note that making cash withdrawal (if applicable) or partial surrender (if applicable) will lead to a reduction in benefits payable under the policy. You are also reminded that if your policy is surrendered in early years, the surrender value payable may be less than the premiums paid by you.
- **Market Risk**
The non-guaranteed benefits of this product are based on the Company's bonuses scales, which are not guaranteed and are determined by the Company from time to time and based on the Company's experiences and expectation of a series of factors including but not limited to investment returns, claims, policy surrenders and expenses. The actual amount of non-guaranteed benefits payable may be higher or lower than the amount illustrated in any product information provided to you.
- **Credit Risk**
This product is issued and underwritten by the Company. Your policy is therefore subject to the credit risk of the Company. If the Company is unable to satisfy the financial obligation of the policy, you may lose your insurance coverage and the premiums paid.
- **Exchange Rate Risk**
For the policy denominated in currencies other than local currency, you are subject to exchange rate risk. The political and economic environment can affect the currency exchange rate significantly. Exchange rate fluctuates and is determined by the Company from time to time. Any transaction in foreign currencies involves risk. You should take exchange rate risk into consideration when deciding the policy currency.
- **Inflation Risk**
Please note that the cost of living in the future is likely to be higher than it is today due to inflation. Hence, the insurance coverage planned today may not be sufficient to meet your future needs.

Termination

The Policy and its coverage will be terminated automatically on the occurrence of the earliest of the following:

- Lapse of the Policy;
- Surrender of the whole Policy;
- The Insured's death;
- The Maturity Date of the Policy, i.e. the Policy Anniversary on which the Insured reaches the Age of 120;
- Our receipt of your request for cancellation of the Policy; or
- The unpaid loan together with accrued interest is in excess of the sum of Cash Value and any cash value of accumulated Reversionary Bonus of the Policy.

You may surrender your Policy by submitting the form prescribed by the Company. You may contact your licensed insurance intermediary or contact our Customer Service Center at +852 2894 9833 to get a copy of the form.

Key Exclusions

We will not pay the Life Insurance Proceeds if the Insured commits suicide, while sane or insane, within 2 years of the Date of Issue or the effective date of change of Insured or the date of last reinstatement of your Policy, whichever is the latest. For the avoidance of doubt, the relevant period will be recounted from the New Policy Effective Date under the New Policy (if applicable) or from the effective date of Split Policy under the Split Policy (if applicable). Instead, the insurance coverage of your Policy will be terminated and we will only pay to you the total Premium(s) paid to us without any interest, less any amount which has been paid to you by the Company under the Policy and any unpaid loans together with accrued interest.

Cooling-off Period

If you or the New Policy Owner (as the case may be) are not satisfied with your Policy or the New Policy (applicable when the Policy Continuation Option has been exercised), you or the New Policy Owner have the right to cancel it by submitting a signed notice and return the Policy or New Policy document (if any) to Chubb Life Insurance Hong Kong Limited at 35/F Chubb Tower, Windsor House, 311 Gloucester Road, Causeway Bay, Hong Kong within a period of 21 calendar days immediately following either the day of delivery of the Policy or New Policy or a notice informing you or your nominated representative about the availability of the Policy or New Policy and the expiry date of the cooling-off period, whichever is earlier. If the last day of the 21-calendar day period is not a working day, the cooling-off period shall include the next working day. Upon such cancellation of the Policy, we will refund the total amount of premiums you paid without any interest, less any amount paid to you by the Company under the Policy, in the original currency paid by you subject to any fluctuation of exchange rate upon cancellation, provided that the amount refunded will not exceed the total amount you paid in the original currency under the Policy. Upon cancellation of the New Policy, we will pay the specified portion of Life Insurance Proceeds to the New Policy Owner in a single lump sum as if the Policy Continuation Option has not been exercised. If there is any premium payment for the New Policy, we will refund the total amount of premiums the New Policy Owner paid without any interest, less any amount paid to the New Policy Owner by the Company under the New Policy, in the original currency paid by the New Policy Owner subject to any fluctuation of exchange rate upon cancellation, provided that the amount refunded will not exceed the total amount the New Policy Owner paid in the original currency under the New Policy.

Collection of Premium Levy by Insurance Authority

The Insurance Authority started collecting levy on insurance premiums from policyowners for policies issued in Hong Kong since January 1, 2018. For details of the levy and its collection arrangement, please visit our Company website at life.chubb.com/hk or contact our Customer Service Center at +852 2894 9833. In the event that we refund your premiums, whether in full or in part, e.g. upon cancellation of your policy during the cooling-off period, the proportionate levy paid by you will also be refunded accordingly.

U.S. Foreign Account Tax Compliance Act

Under the U.S. Foreign Account Tax Compliance Act ("FATCA"), a foreign financial institution ("FFI") is required to report to the U.S. Internal Revenue Service ("IRS") certain information on U.S. persons that hold accounts with that FFI outside the U.S. and to obtain their consent to the FFI passing that information to the IRS. An FFI which does not sign or agree to comply with the requirements of an agreement with the IRS ("FFI Agreement") in respect of FATCA and/or who is not otherwise exempt from doing so (referred to as a "nonparticipating FFI") will face a 30% withholding tax ("FATCA Withholding Tax") on all "withholdable payments" (as defined under FATCA) derived from U.S. sources (initially including dividends, interest and certain derivative payments).

The U.S. and Hong Kong have signed an inter-governmental agreement ("IGA") to facilitate compliance by FFIs in Hong Kong with FATCA and which creates a framework for Hong Kong FFIs to rely on streamlined due diligence procedures to (i) identify U.S. indicia, (ii) seek consent for disclosure from its U.S. policyholders and (iii) report relevant tax information of those policyholders to the IRS.

FATCA applies to Chubb Life Insurance Hong Kong Limited (the "Company") and this Product. The Company is a participating FFI. The Company is committed to complying with FATCA. To do so, the Company requires you to:

- (i) provide to the Company certain information and documentation including, as applicable, your U.S. identification details (e.g. name, address, the US federal taxpayer identifying numbers, etc); and
- (ii) consent to the Company reporting this information and documentation and your account information (such as account balances, interest and dividend income and withdrawals) to the IRS.

If you fail to comply with these obligations (being a "Non-Compliant Accountholder"), the Company is required to report "aggregate information" of account balances, payment amounts and number of non-consenting US accounts to IRS.

The Company could, in certain circumstances, be required to impose FATCA Withholding Tax on payments made to, or which it makes from, your Policy. Currently the only circumstances in which the Company may be required to do so are:

- (i) if the Inland Revenue Department of Hong Kong fails to exchange information with the IRS under IGA (and the relevant tax information exchange agreement between Hong Kong and the U.S.), in which case the Company may be required to deduct and withhold FATCA Withholding Tax on withholdable payments made to your Policy and remit this to the IRS; and
- (ii) if you are (or any other account holder is) a nonparticipating FFI, in which case the Company may be required to deduct and withhold FATCA Withholding Tax on withholdable payments made to your Policy and remit this to the IRS.

You should seek independent professional advice on the impact FATCA may have on you or your Policy.

Automatic Exchange of Financial Account Information

Automatic Exchange of Financial Account Information (“AEOI”) is an arrangement that involves the transmission of financial account information from Hong Kong to an overseas tax jurisdiction with which Hong Kong has entered into an AEOI agreement. In Hong Kong, the relevant legislative framework for implementation of AEOI is laid down in the Inland Revenue Ordinance.

The Inland Revenue (Amendment) (No. 3) Ordinance 2016 requires financial institutions in Hong Kong, to identify and report information relating to financial accounts held by customers that are tax residents of reportable jurisdictions to the Hong Kong Inland Revenue Department (“IRD”).

Chubb Life Insurance Hong Kong Limited (“Chubb”) must comply with the following requirements of Inland Revenue Ordinance to facilitate the IRD automatically exchanging certain financial account information as provided for thereunder:

- (i) to identify certain accounts as “non-excluded financial accounts” (“NEFAs”);
- (ii) to identify the jurisdiction(s) in which NEFA-holding individuals and certain NEFA-holding entities reside for tax purposes;
- (iii) to determine the status of certain NEFA-holding entities as “passive NFEs” and identify the jurisdiction(s) in which their “controlling persons” reside for tax purposes;
- (iv) to collect certain information on NEFAs (“Required Information”); and
- (v) to furnish certain Required Information to the IRD (collectively, the “AEOI requirements”).

In order to comply with the AEOI requirement, from January 1, 2017, Chubb requires account holders (including individual, entities and controlling person) for all new accounts to complete and provide us with a self-certification for tax residence. As for pre-existing accounts, if Chubb has doubt about the tax residence of an account holder (including individual, entities and controlling person), it may require the account holder to provide a self-certification for tax residence.

As a financial institution, Chubb cannot provide you with any tax advice. If you have any doubts about your tax residence status and the impact of AEOI on your Policy, you should seek independent professional advice.

It is an offence under section 80(2E) of the Inland Revenue Ordinance if any person, in making a self-certification, makes a statement that is misleading, false or incorrect in a material particular AND knows, or is reckless as to whether, the statement is misleading, false or incorrect in a material particular. A person who commits the offence is liable on conviction to a fine at level 3 (i.e. HK\$10,000).
