Agribusiness Extra provides insurance cover specifically designed to protect the unique needs of those who work in the agricultural sector.

It aims to protect the financial viability of a farm (and income), when a farmer is unable to work due to disability.

Agribusiness Extra also provides lump sum payments should the farmer become permanently disabled, suffer a traumatic condition or pass away.

A summary of Agribusiness Extra

A policy can be structured so that in the event of a disability the immediate and medium term financial needs of the farm and the farmer are met.

In years 1 & 2 of a disability

Disability Cover – covers the costs of replacement labour, recruitment and farm consultancy for 2 years, while the insured person is unable to work due to an illness or injury. Covering these costs can assist in maintaining the farm for the insured person to return to once they are no longer disabled.

In years 3 to 7 of a disability

Long Term Disability – an alternative to Income Cover (below), the Long Term Disability Benefit can be selected which will provide a lump sum if the insured person has suffered a condition that leaves them totally disabled for more than 24 consecutive months (and they are unlikely to return to work for a further 3 months).

This may be used to reduce the farm's debt or replace the ongoing lost income. As the insured person is unlikely to return to work, the lump sum could also assist with costs relating to establishing other long term plans for the farm, to ensure it remains profitable.

OR

Income Cover Agreed Value – a longer-term income benefit kicks in after 2 years providing ongoing income for up to 5 years if the insured person is unable to work due to a disability.

After 2 years of disability, the farm should be functioning as normal with a long term replacement in place. The focus then changes to ensure the insured person and their family have an ongoing, longer term income.

Long Term Total and Permanent

Disability – an optional lump sum benefit may be selected together with Agreed Value Income Cover and would be payable after the 5 year Income Cover payment term, if the insured person remains totally disabled.

This will allow debt to be cleared, provide long-term income for the insured person and their family, or if relevant, the necessary funds for the purchase of the farm by the farmer's business partner. Essentially, it provides options, at a time of need!

In addition to the options above which allow the farm to continue operating while the insured person recovers, there are a range of lump sum options which will provide financial security to the insured person and their family in the event that they suffer a more serious disability, or they were to pass away.

Life Cover

Provides a lump sum in the event of death or terminal illness of the insured person.

Accelerated Trauma Cover

Provides a lump sum in the event of a critical medical condition or trauma such as a heart attack, major burns or diagnosis of a number of critical diseases including cancer. Because it's 'accelerated' the amount paid will be deducted from the Life Cover.

Accelerated Complete Disablement Cover

Provides a lump sum if the insured person is completely and permanently disabled. Because it's 'accelerated' the amount paid will be deducted from the Life Cover.

Premium Cover

Pays the full policy premium if the insured person is unable to work because of a disability.

Disability Cover

Years 1 and 2 - keeping the farm running while the farmer recovers from illness or injury

If the insured person was to become ill or suffer a disability and be unable to work they will still need to maintain an income to keep the farm going while they recover. The following Disability Cover benefits will provide a range of cover for up to 2 years, allowing for some breathing space while the insured person focuses on recovery.

1 Replacement Labour Benefit Option

Replacement Labour pays an Agreed Value monthly benefit for a maximum of 2 years to assist with the costs of replacing the farm owner while they are unable to work. It also includes:

- › Recruitment Costs Benefit – An additional \$2,500 is payable with the first payment to assist with one-off expenses such as recruitment costs.
- › Optional Seasonal Adjustment Benefit – Allows for the nomination of two 6 week periods where the amount payable will increase by an additional 25% to help with additional seasonal expenses associated with calving, lambing, harvest time etc.

2 Farm Consultancy Benefit Option (with Booster)

Farm Consultancy pays an Agreed Value monthly benefit for a maximum of 2 years to assist with expenses associated with engaging a Farm Consultant for services such as herd management and feed systems.

The Booster – In addition we will pay an extra monthly payment equivalent to the Farm Consultancy Benefit amount for the first 6 months to assist with increased costs over this period.

3 Long Term Disablement Option (lump sum)

As an alternative to Income Cover, the Long Term Disablement Option provides a lump sum payment if the insured person has suffered a condition that leaves them totally disabled for more than 24 consecutive months and they are unlikely to return to their normal farming duties for a further 3 months.

Special features

The monthly benefits include:

Bed Confinement Benefit

If the insured person is confined to bed either at home or in a hospital for more than 3 days, under the daily supervision of an approved medical practitioner, a Bed Confinement Benefit will be paid for each day of such confinement during the waiting period. The benefit paid is the daily equivalent of the monthly benefit.

Recurrent Disability Benefit

If the insured person suffers a recurrence of a disability within 6 months of the end of a claim for the same disability, the waiting period will be waived for the new claim.

Partial Disability Benefit

If the insured person has been totally disabled for 2 weeks or more and then returns to work in a reduced capacity (the hours worked per week while partially disabled are less than 75% of the hours worked per week in the 3 months immediately prior to being totally disabled as a result of the same disability), they can receive a Partial Disability Benefit once the waiting period is over.

Special features

The monthly benefits include:

Benefit payable monthly in advance

Total and Permanent Disability Benefit

An additional payment of 12 times the monthly benefit is payable as a lump sum if the insured person is diagnosed as being totally and permanently disabled.

Special Care Benefit

A discretionary benefit of up to 24 times the monthly benefit is payable for rehabilitation or training to assist the insured person in returning to work.

Leave Without Pay Benefit

Chubb Life Income Cover allows the insured person to receive a benefit while they are on unpaid leave for up to one year. During such year the insured person is fully covered, based on their occupation class and income immediately prior to taking unpaid leave. After one year is up, the insured person will be reclassified as Occupation Class 5, but cover does not cease and is immediately reinstated at their initial occupation class on regaining employment.

Return to Home Benefit

If the insured person has been working outside New Zealand for more than 3 months and suffers a total disability while they are overseas, the Return to Home Benefit will pay the cost of returning to New Zealand.

Recurrent Disability Benefit

If the insured person suffers a recurrence of a disability within 6 months of the end of a claim for the same disability, the waiting period will be waived for the new claim.

Increasing Income Benefit

The insured person has the option to increase their cover as their income increases without further medical assessment. An application to increase must be received by Chubb Life within 60 days of the insured person's increase in income. This ensures that monthly benefits remain relevant to the needs of the insured person.

Optional benefit restriction

The insured person may reduce their premiums by opting to voluntarily restrict mental health claims to a maximum period of 1 year.

What happens at the end of a 5-year Income Cover claim?

Optional feature – Long Term Total and Permanent Disability Benefit.

The optional Long Term Total and Permanent Disability Benefit provides a lump sum payment at the end of a 5 year Income Cover claim – providing ongoing financial support if the insured person is unable to return to work.
