

Insurance Solutions for Logistics Companies

The logistics industry plays a pivotal role in connecting businesses and consumers, ensuring goods move efficiently across local and global markets. With increasing complexity in supply chains and technologies, logistics companies face increasing pressures and challenges.

Chubb offers a full spectrum of insurance products, services and solutions to help logistics companies manage and mitigate both the everyday situations, as well as those rare and unforeseen events.

Chubb supports logistics businesses of all sizes across Asia

Freight forwarders

Trucking operators

Last-mile delivery partners

Removalists

Addressing logistics risk across cargo, operations and business liability with customised solutions

Multi-Modal Freight Liability Insurance

Covers logistics operators' daily activities with freight liability and professional indemnity insurance. Suitable for transport businesses of any size, including contractors and delivery partner networks. Bespoke options are available for special contracts and unique operational needs.

Spot Cargo and Shipment Insurance

Logistics operators can offer tailored cargo insurance covering loss or damage during freight, including last-mile delivery. Simple shipment insurance for fast-moving goods integrates easily with online booking platforms.

Property and Liability Insurance

Chubb offers tailored property coverage for physical assets owned by logistics businesses such as warehouses and equipment. A range of public/general liability, employees' compensation, cyber and financial lines products are also available.

Relocation Insurance

Supports household relocation services with comprehensive coverage for goods and property in transit from point of origin to final destination, and up to 90 days of storage.

All benefits and coverages are subject to the terms and conditions of the policy. Please refer to the policy wording for the full insuring clauses, definitions, schedule, extensions, terms, conditions, exclusions, and limits of liability of the policy.

Complimentary digital solutions for agents, brokers, and logistics operators

- Terrorism and Political Violence
- Corporate Accident & Health
- Technology Professional Indemnity
- Manufacturer's Errors & Omissions

Case scenarios

Bespoke cover for group of local chemical carriers

A leading petrochemical company needed seamless risk transfer across its network of independent haulage operators, as required by principal contractor agreements.

Chubb worked with both the principal and local trucking companies to design a bespoke cargo solution that met contractual obligations and provided risk management guidance and claims support.

This approach reduced operational uncertainty and strengthened supply chain resilience.

On-demand cargo insurance for a freight forwarder

A freight forwarding company faced a last-minute request for an overseas shipment, with the client requiring immediate proof of insurance for trade documentation.

By using Chubb's 24/7 CargoAdvantage® portal, the forwarder was able to issue a cargo insurance policy outside of regular business hours.

This enabled the shipment to proceed without delay, ensured compliance with trade requirements, and helped the forwarder deliver reliable service to its client.

Embedded shipment insurance for a trucking company

A local trucking company needed to provide a certificate of insurance before a shipper would confirm a contract to transport agricultural goods.

Using a transport management platform integrated with Chubb's insurance solution, the company instantly secured pay-as-you-go shipment insurance and provided digital proof of coverage before collecting the cargo.

The trucking company was able to quickly meet the shipper requirements, win the contract, and reduce admin hassle.

The above case studies are purely illustrative. Claims will be assessed in accordance with the policy wording, and outcomes may differ, on a case-by-case basis.

Why choose Chubb?

Specialist Expertise

Over 25 years of experience providing insurance solutions to a diverse group of clients.

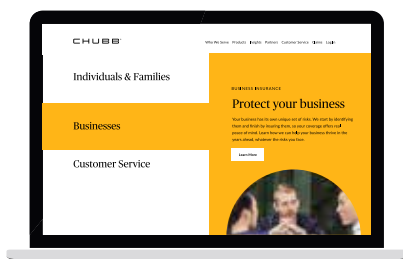

Claims Service
