CHUBB®

Technology Risk Appetite

Risks we like			Apply caution
Hardware and Electronics Manufacturing	**Software Development**	**Advanced Manufacturing**	**Health Informatics Technology**
Communication equipment	Custom software development	Advanced robotics	Clinical Informatics medical records
Electronic components	Pre-packaged software	High precision technologies	Software systems image informatics
Integrated circuit manufacturers	Operating systems	Computer maintenance	Tele-Health
Network/Hardware manufacturers	Networking software	Intelligence (MII) systems	Hospital/Clinic/Pharmacy/GP
Smart technology accessories	Databases	Manufacturing Operations	Admin systems and software
Communications gateways	Application software and tools	Management (MOM) Systems	- Billing
IP telephony	Computer programming	Sustainability technologies	- Patient appointments
	COTS shrink-wrapped software	Automation processes	- Patient management
Information Technology Services	Medical packages	3D printing processes	Medical Research Informatics
System integrators	Security packages		Medical Processing Equipment
Data processors and integrators		**Clean Technology**	Bio-Medical Informatics
Data storage and retrieval services	**Internet and Network Services**	Analytical & monitoring solutions	
Computer consultants and systems analysts	Voice, data and video transmission services (telco's) including:	Asset efficiency management equipment	**Risks we don't like**
Computer facilities managers	Internet service providers	Efficient lighting design and manufacturing	Adult entertainment/Content
Computer maintenance and repair	Application service providers	Emissions control monitoring devices	Airlines/Airports
Value added resellers	Web hosting and ancilliary services	Environmental technology equipment	Gambling
Outsourcers	Wireless communications and Messaging	Smart building systems	Guidance systems
Other computer-related services	Infrastructure development projects	Smart Grid technologies including	Mass transportation
	Cloud providers	Smart meter technology	Navigation
Emerging Technologies	Data centre operations		Nuclear energy
Cloud	Data storage		Social Networking Site/Applications
Big data	Network service providers		Space equipment/Satellites
Internet-of-Things	Call centres - Tech clients		Trading platforms
Predictive modelling	Business process outsourcing		Utilities
Diagnostic equipment			
Process control/Control system integration
