But healthcare executives shouldn't rest easy.

For the past three years, the healthcare industry accounted for 14% of all ransomware attacks, the **3rd most of any industry**

Chubb Ransomware Industry Incidents*

Implementing a holistic risk mitigation plan is the best defense against all types of cyber security breaches. Consider implementing the following 5 measures to protect your organization:

Provide annual employee trainings for both medical and non-medical staff on emerging cyber security threats and red flags to watch for

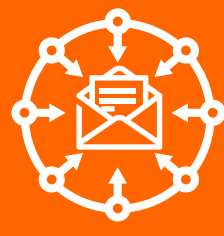

Enable strong spam filters

Invest in technologies that can scan and review emails for suspicious activity

Limit access to privileged accounts

Conduct regular penetration tests

Run online and offline backups

Improve password hygiene
