### **SECURITY CONSULTATIONS & LIFESTYLE VULNERABILITY DIAGNOSTICS**

Teaming with The Ackerman Group LLC (AG), a premier consulting, investigative and crisis management firm, Chubb offers in-depth telephone diagnostics at no fee to address your security concerns and recommend ways to improve your security profile. A consultant will work with you to:

- Enhance personal security procedures; assess travel risks in 100 countries and suggest risk-mitigation measures
- Recommend residential security enhancements, to include appropriate physical security measures (lighting, locks, alarms, etc.)
- Recommend procedural security strategies (such as varying one's pattern of behavior, keeping an eye out for possible surveillances, and instructing family members and domestics in protecting sensitive information from unknown telephone callers.)
- If requested, the consultant also can conduct a cursory review of architectural plans and suggest security solutions
- Provide recommendations for dealing with ID theft

After the telephone diagnostic session, the consultant will memorialize the recommendations he made in a brief written report.
