

# Targeted Insurance Solutions for Financial Institutions

Insurance from a carrier with more than  
100 years of experience protecting  
institutions like yours.

CHUBB®

Consider the extraordinary ways financial institutions have changed in just the past 10 years...with the evolution of new services, new technologies, and new legislation.

Adapting to the ever-changing business landscape may be forcing you to compete in new ways through product and service enhancements, technology advances, and human resource deployment. Each advancement poses new and potentially significant risks to your firm, from your branch network to cyber exposures to your workforce.

Keeping pace can place enormous stress on your staff, not to mention your bottom line. At times like these, it is especially important to have a strong insurance provider by your side.

Unlike some insurers, we manage claims using our own claim examiners. This approach provides you with several benefits:

- **Personal attention to your claim**—We assign a single claims professional to serve as your primary contact, dedicated to keeping you informed during the process and promptly answering your questions with respect to your claim.
- **Best possible result based on a team approach and experience**—We work closely with you, counsel, and your agent or broker to obtain the best possible result for your claim, applying the experience we’ve gained handling financial institution claims for more than 100 years.
- **Multinational capabilities**—We offer a coordinated worldwide approach to handling your multinational claims so you don’t need to worry about the unique challenges posed by claims that cross borders.
