

# Marine Risk Management Team

Chubb's Marine Risk Management team provides world class technical services, risk assessment and loss analysis for our clients worldwide. Years of experience have led to the development of cost-effective and commercially viable loss prevention solutions for protective packaging, cargo handling, transportation and related logistics issues. The information and loss prevention techniques are relevant for new importers/exporters, established multinational enterprises, asset-based transport companies and intermediaries in any mode. Our team is:

**Steve Erhardt**  
Senior Marine Risk  
Management Specialist

**Barry Tarnef**  
Loss Control Specialist,  
Marine Risk Management

**John Venneman**  
Senior Surveyor,  
Marine Risk Management
