Local Policy Translation

The Information You Need is Clear

Global Controlled Master Programs with international policies written in foreign languages are a reality for many multinational companies, and customers and brokers seeking general policy information often need these original policies translated to English. Chubb has made it easy for current multinational clients and brokers to receive these English language translations of local policies free of charge, via Worldview. Simply select Translate from the Actions menu of the Document Library (or Program Summary) to submit your request. You can expect your translated document delivered via Worldview within three business days.

(Translations are for informational purposes only; all official contract language is set based on the local language in which the original policy is issued.)

Enhanced Premium Tracking

The Status of all Payments at a Glance

Worldview's new Premium Tracking tool makes seeing premium payments globally quick and simple. There's an interactive pie chart summarizing "the big picture," complemented by detailed information on the status of pending payments, payment amounts and currency, and the date Chubb received payment. This new feature is available for all captive and deductible recovery programs, and can be accessed in Worldview via the Multinational Premium Tracking link in Highlighted Tools.

Multinational IQ Updates

Keeping Ahead of Upcoming Renewals

You asked, we listened: Worldview's Multinational IQ report now also includes a complete listing of upcoming renewal accounts containing high level country- specific requirements pertinent for upcoming renewals and timely policy issuance. You'll know if anti-money laundering documentation is required, Cash Before Coverage is enforced, a local broker is needed, and more – all key information provided by Chubb's Multinational Research Tool (MRT). Reports will be automatically delivered directly to your inbox, allowing you to keep renewals on target.
