

Benchmark Package

The “Marq” of Excellence

What’s Different

Setting a new benchmark for package policies.

While Benchmark Package preserves many features and benefits of our renowned Customarq Package product, it also has many new and unique features and benefits.

Its broad offering, scalability, faster quoting, and streamlined product design bring more value to agents and brokers looking to craft package solutions for lower middle market clients.

Simultaneously, through higher limits and coverage endorsements, Benchmark can scale up and create a fully customized package solution that addresses the unique needs of larger or more complex operations. To learn more, please contact your local underwriter.
